RECOMMENDATION LETTER

KazIndustrial Engineering Co. LLP, a licensed project management company, notes that TechnoGroupService LLP (TGS) demonstrates outstanding achievements in the field of renewable energy sources (RES) and is the leader of this industry in the Republic of Kazakhstan. In particular, in 2021 TGS was awarded the Presidential Prize "Altyn Sapa" in the category "Best enterprise providing services" in the field of renewable energy sources (RES).

We also appreciate TGS's commitment to project sustainability, as evidenced by several key points:

1. RES projects in Kazakhstan: TGS has successfully designed, built, and maintained over 60 MW of solar power plants in the Republic of Kazakhstan. In 2022 and 2023, TGS exceeded its solar power generation targets.

2. Development of IT applications: TGS introduces innovative technologies, such as the Intech-Forecast IT program for forecasting electricity production from renewable energy sources, which has export potential.

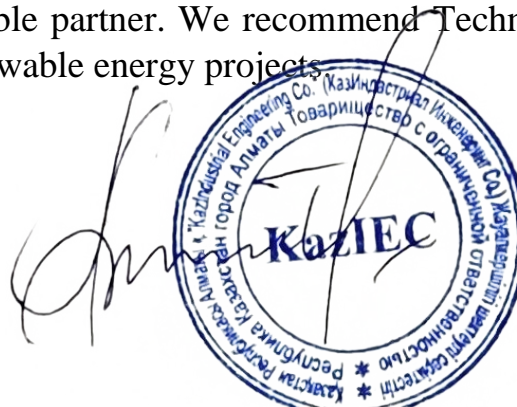

3. International cooperation: TGS is implementing the 50 MW Kun Bulagy solar power plant project in the Kyrgyz Republic with plans to expand to 300 MW and is also negotiating with the Ministries of Energy and Industry of Azerbaijan, Tajikistan and Turkmenistan.

4. Development of production of equipment for the renewable energy market: TGS is actively working to organize the production of photovoltaic modules, energy storage systems and metal sections of towers for wind turbines.

5. Educational and social activities: TGS actively conducts educational activities and participates in the professional training of young specialists in the field of renewable energy sources.

Competence in project management and commitment to quality work make TGS a reliable and responsible partner. We recommend TechnoGroupService LLP for joint participation in renewable energy projects.

General director

A.E. Arystanov
